6. APPOINTMENT OF AUDITORS:

Unless otherwise specified therein, it is presently intended to vote the proxy to appoint Moore Stephens Limited, Chartered Accountants, Gibraltar, as auditors of the Company, to hold office until the next annual meeting of shareholders, and to authorize the Directors to fix their remuneration.

7. LISTING ON THE PRAGUE STOCK EXCHANGE, THE VIENNA STOCK EXCHANGE OR AN ALTERNATIVE STOCK EXCHANGE IN THE EU:

It is the Company's intention to list the shares of its common stock on the Prague Stock Exchange as soon as practicable, which is expected to be no later than the end of September 2014, subject to any circumstances beyond the Company's control. The purpose of such listing is listing to promote additional liquidity to all investors and to introduce the Company to European investors and fund managers, who, in each case, may be required or willing to invest in European Union ("EU") markets and currencies only. If the Company in its reasonable discretion at any time believes that it would derive more benefit from listing on the Vienna Stock Exchange or an alternative stock exchange in the EU, it will, instead of the Prague Stock Exchange, pursue a listing on the Vienna Stock Exchange or such other stock exchange in the EU as it deems fit. Your proxy will be voted to approve the listing of the Company's common shares of stock on the Prague Stock Exchange or such other exchange as the Company may choose.

8. DEMATERIALIZATION OF THE COMMON SHARES OF THE COMPANY:

In order to effect a listing of shares of the Company's common stock on the Prague Stock Exchange, the Vienna Stock Exchange or any other stock exchange in the EU or elsewhere (the "Listing"), it will be necessary to record ownership of such shares in electronic format as opposed to in physical certificates. At present, many of the transfers of shares of the Company are accomplished by the negotiation of physical certificates, whose ownership is recorded in the share registry by the transfer agent. The Prague Stock Exchange and other Exchanges such as Vienna require that all transfers of shares and ownership thereof be recorded in electronic format in accordance with applicable rules and procedures. The process of switching the recordation of ownership of shares in the Company in the form of physical certificates in the Company's share registry by the transfer agent to electronic recordation of transfers and ownership is called "dematerialization". The rights, privileges and obligations of and attached to the shares of the Company are the same whether in the form of physical certificates or dematerialized form. It will be possible for the Company to have, at the same time, both shares in the form of physical certificates and dematerialized shares until all the physical shares are dematerialized. The Company now has over 60% of its shares dematerialized. The company will undertake to keep a 'shadow' share registry (i.e., to record share ownership to the extent possible), which it is doing in any event. Your proxy will be voted for the dematerialization of the shares of common stock of the Company in order to facilitate the Listing.

9. AMENDMENT OF THE COMPANY'S ARTICLES OF ASSOCIATION:

In order to effect the listing as described above, the Company must amend its Articles of Association in order to provide for dematerialization of shares and for the free transfer of such shares at all times. The current version of the Company's Articles of Association specifically requires signed paper certificates and gives the Company the power to prevent transfers of its shares for up to 60 days (during which it may refuse to record any changes in ownership). The Company requires the right to dematerialize its shares, but must forfeit the right to stop share transfers by refusing to register them; otherwise the Company may be ineligible for the Listing without this change to the Articles of Association. Consequently, the Company is proposing to make the amendments set forth in Annex A hereto. This change is clearly in the best interests of the shareholders as having the shares listed on a Designated Exchange. Your proxy will be voted to approve the foregoing amendments to the Articles of Association.

10. OPTIONS:

There are 12,000 options authorized during the fiscal year with an expiration date of 01 June 2013. 6,000 have a striking price of US\$5/share; the remaining 6,000 are at US\$10/share.

11. INSURANCE:

The Company has liability insurance for its various offices and facilities worldwide. The Company is obligated to indemnify all of its Officers and Directors against any legal actions or threatened legal actions that are in any way related to their relationship to the Company. The indemnification includes paying all legal bills and all costs of any kind relating to any such claims.

12. INTEREST OF LARGE SHAREHOLDERS IN MATERIAL TRANSACTIONS WITH THE COMPANY: Borealis Technical Limited collects a nominal annual retainer fee for managing the business of Avto Metals plc. All funds raised before Fiscal Year 2007 by the sale of Avto Metals plc shares went to Borealis Technical Limited, where they became an accounts payable to Avto Metals plc. Borealis Technical Limited, in return, paid all of Avto Metals plc's expenses. The result of this was that Avto Metals plc had its expenses paid, and the funds used to pay these expenses were still owed by its parent company to Avto Metals plc. When Avto Metals plc raises sufficient money to fund its own research programs and patenting activities, it will become a stand-alone company, still with the backing of the Borealis Family of Companies.

13. GENERAL:

The Management knows of no matter to come before the Annual Meeting other than the matters referred to in the Notice of the Meeting. If any matters that are not now known to the Management should properly come before the meeting, the accompanying proxy instrument will be voted on such matters in accordance with the best judgment of the person or persons voting it.

Please refer to the Company's Audited Annual Accounts posted on its website at www.avtometals.gi for financial disclosure about the Company's operations for the fiscal year ended 31 March 2012.

ANNEX A

The Companies Ordinance of the Laws of Gibraltar

Public Limited Company Limited By Shares

Amended 26 June 2012

Articles of Association of Avto Metals plc

Registered Shares

2. Subject to paragraph 5 below, the Company shall issue to every member holding registered shares in the Company a certificate signed by a director or officer of the Company under the Seal of the Company specifying the number and type of share or shares held by him and the signature of the director or officer and the Seal may be facsimiles. The share certificates need to bear separate, distinctive numbers.

Dematerialized Shares

5. Notwithstanding anything else to the contrary, and in order to effect a listing on a stock exchange or otherwise to facilitate trading in the Company's shares, the Company shall be permitted to dematerialize its shares and otherwise take any action necessary to qualify or render them eligible to be listed and traded on a stock exchange in accordance with the rules and procedures of such exchange. Any person duly holding dematerialized shares in the Company shall be accepted as a member of the Company and given the same rights, privileges and obligations that a member holding a registered share in certificate form has pursuant to these Articles, the Memorandum and/or the shares themselves.

Transfer of Shares

16. Subject to any limitations in the Memorandum, registered or dematerialized shares in the Company may be transferred in such manner as the directors may from time to time decide, including, but not limited to, that (i) in the case of registered shares, a professional share transfer agent be retained to maintain the share registry and transfer shares on behalf of the Company or (ii) in the case of dematerialized shares, a competent or otherwise authorized entity or a professional share transfer agent be retained to process transfers and record ownership in electronic format in accordance with applicable rules and regulations. The Company is authorized to keep a 'shadow' share transfer journal, so the dematerialized share transfer journal will be backed up.
